## Large fleet for first race of second twilight series

**SAILING:** The first race of the second Twilight Series at Goolwa Regatta Yacht Club (GRYC) attracted a large fleet and Division 2 and 3 skippers had to decide whether they would now change divisions and sail with spinnakers.

This resulted in two mixed classes of boats with a group of Division 2 boats joining the Restricted 21s to race using spinnakers.

The second twist of this series was that the dinghy class followed the spinnaker class instead of starting third, and with variations in the course, they mixed it well amongst the bigger boats.

The start line for each division was very competitive and racing remained tight throughout the course.

Spectators were treated to a great show of spinnakers as the boats enjoyed a long run from the Barrage through to the

Bridge before heading for the finish line in front of GRYC.

Despite the close racing sailors were pleased that there were no major incidents or damage to boats this week.

The popular Sail Training Program is well under way and Sailability sailors and their crew are also practising for the upcoming State Championships at GRYC in March.

Both these group train on Saturdays and are enthusiastic about the skills they are developing.
